

Waiz Tahseen

Full Stack Web Developer | 3 Years Experience

Professional Summary

I am an 18-year-old highly skilled full-stack web developer with 3 years of experience. I specialize in building complex, modern, and highly polished web applications, CRMs, and 3D experiences. With an expert ability in problem-solving, I navigate complex technical challenges effortlessly. Utilizing a hybrid workflow of AI tools and deep manual coding expertise, I deliver world-class software at unprecedented speeds.

Experience

Full Stack Web Developer at Stream Design Studio & Freelance

2023 - Present

Developed and delivered 30-50 high-quality web applications, CRMs, and websites for Stream Design Studio as well as personal clients globally. Leveraged AI to accelerate development without compromising quality.

Key Projects

Boomers Insurance CRM

CRM | Next.js, Node.js, MySQL, Tailwind

A massive CRM portal built for a Medicare insurance company in the USA. Handled complex data routing, agent management, and analytics.

AI SaaS Dashboard

SaaS | React, Laravel, Tailwind, OpenAI API

A fully functional AI SaaS platform allowing users to generate content with integrated billing and user management.

Multiplayer FPS Web Game

Game Dev | Three.js, React Three Fiber, WebSockets

A tactical 3D shooter built entirely for the browser with multiplayer capabilities, custom loadouts, and dynamic arenas.

Technical Skills

Frontend: React, TypeScript, Tailwind CSS, Bootstrap 5

Backend: Laravel, PHP, Django

Database: MySQL, MongoDB

Other: Expert Problem Solving, Game Development, APIs, Auth Systems, AI Tools
